■ Specifications

1. The clear head has large working space that makes you feel comfortable to work. The transparent front panel is antistatic to protect from adhesin of dusts to keep your views clear.

2. Adjustable air blower, using suction air circulation, cools down denture, keeps your views clear, and removes cutting dusts effectively.

3. The process of changing filter is only one-step. Filter is easy to replace and disposable.

4. Your micromotor is installable. Also, suction is in conjunction with micromotor switch to be efficient and easily used.

NAME	Power	Current (50/60Hz)	Output	Weight	Noise Level	Belt
CAPT-PLUS	Single phase 220V	4.1A	0.45kW	Approx.22kg	Approx.65dB	Motor direct type
